- **Front-End:** HTML, CSS/SCSS, Javascript/jQuery/AJAX, eRuby, JSPs
- **Database:** MySQL, SQLite, ORMs such as ActiveRecord
- **Testing:** JUnit, Selenium, RSpec, Capybara, TDD Principles, Jenkins
- **Other:** Git/GitHub, Linux Environments, Maven, Virtual Machines, REST APIs, Agile Principles

PROJECTS

RecordStore – *Web App that Stores a User's Record Collection*
- Back-end built with Ruby on Rails 4
- Utilizes custom routing, view partials, model validations, strong parameters, and other RoR concepts
- Front-end developed with HTML/eRuby, CSS/SCSS/Twitter Bootstrap, and JavaScript/jQuery/CoffeeScript
- Deployed via Heroku with a PostgreSQL database
- Test suite supported by RSpec, Capybara, and test factories

WORK EXPERIENCE

Denim Group – *ThreadFix Developer III;* San Antonio, TX   February 2015 - Present
- Analyzed and monitored a sizable production application with a Spring MVC/AngularJS/MySQL stack and provided targeted information for remediation and improvement
- Programmed and designed integration tests for an automated regression suite of over 350 tests
- Maintained a roster of over thirty daily and weekly automated jobs as part of a robust continuous integration deployment
- Developed artifact build processes for creating customer deliverables and version releases

First Community Credit Union – *Floating Manager/Management Trainee;* Houston, TX   July 2013 – February 2015
- Learned to utilize various lending, transactional, security, and financial programs
- Developed VBA macros to parse, organize, and present information from a credit report for lead generation
- Utilized formulas and basic algorithms to better track employee activity in management reports
- Adapted quickly to various branch positions (including Branch Manager, Financial Services Representative, and Teller Manager) in an environment of self-accountability

Mouser Electronics – *Intern*; Mansfield, TX   Summer 2012
- Developed VBA macros to automate cyclical accounting functions, reducing time-to-completion by up to 80%
- Assisted accounting staff with completing financial reports and monthly statements
- Completed end-of-month/end-of-quarter tasks accurately and in accordance with deadlines
- Researched discrepancies and tracked specific problems across multiple documents and domains to resolve conflicts
- Aided extensively with fixed assets and foreign branch financials

LEADERSHIP EXPERIENCE AND ACTIVITIES

FCCU Employee Activity Club – *Board Member (Outreach)*   January 2014 - Present
- Coordinated monthly employee events and giveaways with other board members
- Designed and maintained employee sign-up sheets, which featured real-time cost-tracking
- Assisted at and participated in large-scale EAC events

Hispanic Business Student Association – *Member*   Fall 2012 – Spring 2013
- Volunteered at on-campus events and HBSA-sponsored career fairs
- Participated in community outreach projects
